Another Dearborn Partners High & Rising Dividend SMA Portfolio Increase: BCE Inc.

On February 2, 2023, BCE Inc. (BCE) announced a 5.2% increase in its quarterly dividend per share to \$0.9675 (\$3.87 annually) from \$0.92 (\$3.68 annually). The cash dividend will be paid on April 17, 2023 to holders of record as of March 15, 2023. This is the 19th consecutive annual increase in the dividend paid by BCE Inc.

From the press release: "We capped off 2022 with another quarter of consistent and disciplined execution that drove a strong 3.7% increase in total revenue in Q4. We also delivered positive adjusted EBITDA growth, despite unprecedented cost pressures from inflation and record storms, an expensive and highly competitive Black Friday, and media advertising softness, which is a testament to our ability to execute under any condition," said Glen LeBlanc, Chief Financial Officer of BCE and Bell Canada. "BCE's fundamentals and competitive position are as strong as ever, as evidenced by our 2022 operating results and consistent financial guidance targets for 2023. With healthy projected free cash flow growth, supported by declining capital expenditures, a strong defined benefit pension plan valuation position, as well as a continued focus on profitable subscriber growth and cost discipline, we are increasing BCE's common share dividend by 5.2% for 2023."

BCE is Canada's largest communications company, providing advanced Bell broadband wireless, Internet, TV, media and business communications services.

BCE Inc. is in the Communication Services sector of our Dearborn Partners High & Rising Dividend separately managed account (SMA) portfolio. So far this year, 4 of 25 companies in our High & Rising Dividend portfolio have announced 4 dividend increases averaging about 4.3% more than these companies paid a year earlier. No companies in this portfolio have reduced or suspended dividends so far this year.
